

## EZ-Track Shelving

# EZ-TRACK SHELVING

In this section you will find a storage solution to suit all your requirements. Our EZ Track range is available in 4 different finishes (chrome,galvanized, epoxy coated and 304 Stainless Steel) ensuring that it can be used in any environment as well as fitting into any budget.

In addition, special bespoke sizes can be offered as well so that you can ensure that all valuable space is used to its full potential. The EZ Track system requires nothing more than a rubber mallet to assemble the bays and the shelves can be easily adjusted within 100mm increments. As standard our 5-tier units are supplied with 1800mm posts and 3-tier units with 1500mm posts. Additional tiers and alternative post heights up to 2200mm are also available along with castors if required.

Take advantage of the experience that **MEDISPEC** has developed over the years and let us assist in layout designs to ensure maximum space utilisation at no additional cost. Our approved installers can offer a competitive and efficient installation service if required.
